

Hygiene Rules of the SRH Berlin University of Applied Sciences for students

In addition to the existing house rules of the respective building of the SRH Berlin University, we oblige all members of the university to observe the following hygiene rules.

According to the current regulation of the Berlin Senate, entry to the university is only possible in the case of exceptions. These include appointments for borrowing items from the libraries and media technology, laboratory, workshop or studio appointments, practical projects and, if necessary, (re-)examinations.

After entering the university premises and washing your hands, please register on the attendance list displayed at the respective washrooms (see below).

In order to reduce the risk of infection in the university to a minimum, every person is required to observe the following hygiene rules:

1. **Mouth-Nose-Protection:** Before entering the building, please put on a mouth and nose protector.
2. **Wash your hands:** Upon entering the premises of the university, please wash your hands as a first measure. There is contactless access to a lavatory on each floor. Follow the signs!
3. **Follow rules for coughing and sneezing:** When coughing and sneezing, turn away from other people. If possible, do not touch your face with your hands. Use a disposable handkerchief or, in an emergency, the crook of your arm. Always wash your hands after blowing your nose, sneezing or coughing!
4. **Keep your distance:** Keep a distance of at least 1.5 m from other people. Please refrain from greeting rituals such as kissing, hugging and shaking hands. Observe signs for restricted access.
5. **Toilet hygiene:** Wash your hands after going to the toilet. Disinfect the surfaces you touched with disinfectants available in the rooms. Follow the signs for restricted access.
6. **Hand disinfection:** Please disinfect your hands after washing your hands and before entering seminar and function rooms. Observe the rules for correct hand disinfection, which are posted on information signs.
7. **Surface disinfection:** After using rooms, please disinfect the surfaces you used with the provided means and disposable towels.
8. **Ventilation:** Please regularly and thoroughly air the rooms you are in.

We kindly ask you to leave the university premises directly after your appointment and not to stay on the premises as agreed.

In the event of non-compliance with the rules, the university has the right to deny access to persons until further notice.

In addition, access is prohibited to all persons who have been abroad or in domestic crisis areas in the last 14 days or who have had contact with persons suspected or confirmed to have COVID-19 disease.

We thank you in advance for following the rules!
